

# COLLABORATIVE PROJECTS SOUTH AUSTRALIA

The Collaborative Projects are regional structures that facilitate service reform and improve service cooperation and coordination at a regional level.

The projects engage with services that support frail older people and their carers.

The work completed by the projects will lead to improved quality of life outcomes for the target group, including independence and participation in their communities of choice through a partnership approach with all stakeholders.

## STRATEGIC AIMS

### COLLABORATION

- Diversity of regional representation
- Effective communication
- Build and maintain networks and relationships through sustainable regional structures

### REFORM

- Support and influence the translation of policy and research into practice
- Promote opportunities for stakeholders to influence reform
- Promote innovation and sustainable change

### ENGAGEMENT

- Diverse stakeholder\* commitment, participation and influence
- Engagement around identified regional issues and opportunities
- Regional planning through consultation and engagement

### RESPONSIVENESS

- Collaborative responses to identified regional issues
- Capacity building through the sharing of knowledge and resources
- Showcase best practice and regional initiatives

\*Stakeholder refers to consumers (service user and/or carer), service providers and the broader community sector.

If you are interested in being part of your regional collaborative project or would like more information about workgroups, projects, planned forums, training sessions or task groups, contact the relevant project officer.
